above maples *Acer campestre* along road dec 82 self sown north side

genets d'espagne *Spartium junceum*

Symphorine 'Hancock' 84 *Symphoricarpos* × *chenaultii* 'Hancock'

Viburnum tinus

Eleagnus 'Ebbingei'

Honeysuckle

Below: *Rosa gigantea* 'Lafayette'

Ceanothus 'Skylark'?

Séringat 'Virginale' 2012

Mail path

1981 Ginkgo, cotoneasters, berberis, *laburnum vossii*, *ruscus*

Cornus mas

Mahonia aquifolium

Chêne rouge, shoot from *Prunus Mume*

5 berberis *ottawaensis* by ginkgo 85 + *Eleagnus macrophylla*

Upper Reservoir slope and pool area

Erica mediterranea 85; 100 feb 86 along with 40 gènes d'Espagne

Nov 83:3 acer ginnala B space 1 big *escallonia macanthra*? 1 ?m... where *hydrangea* ws

More acer ginnala Oct 88?

ilex castenifolia from Margaret before 2001

lagerstroemia by pool house 1988?

Genets 1980+ 81 *Spartium junceum*

2 berberis *candidula* by path to ginkgo

3 *Cornus mas* on slope above ginkgo

1 *genista tinctoria* Royal gold top of LH path

1 *Kerria picta* by other *kerria*

1 *mahonia japonica* ginkgo

Dec 82 6 mahonias

86 spirée van houtei corner, *Cytisus porlockii* *Rubus odorata*

Holodiscus discolor dec 82 were three, one survived

ginkgo planted feb 81 never grew well; removed

eleagnus oct 87

berberis, *ruscus* same time

86 Planting reservoir slope, spirée van houtei corner, *Cytisus porlockii* *Rubus odorata*

Ceanothus Amsterdam by pool with LR

Pool path feb 83 tilleuls different kinds to replace last years

Rosemaries, extended on edge Dec 91

Pool LR and trompette de J dec 83. TJ never ever flowered.

Path below pool Feb 85 WHICH IS TRUE?

Feb 82 TILLEULS 5 in lane, 2 different kinds *euchlora* and *tomentosa*

Wedding Day jan 88 gift from Martin Ragets

Back wall: rosa?

2 catalpas by BH Jan1987 + bignone wall of BH

Nov 88 1 euyonmous colorata north wall BH 1 Rosier pierre de Ronsard Bh

87 autumn: Planted piscine area: Erica df maxwell, ledge, three roses fiary, west end

buddleia royal red and black knight and lochinch instead of LR, one LR in pots

others by end wall Mme Planchon, rosier 'New Face by cypress

87 vigne vierge, by BH electric box

Trompette de Jéricho west of BH.

Pierre de Ronsard January 90

Or nov 88? 1 euyonmous colorata north wall BH,

Wall of LR on black plastic by main pool, march 90?

Big House east: 3 robinia casque rouge, 2 lagerstroemia rose –turned out to be one violet. Jan 83

2 casque rouge planted dec 82 not sure wehre

Jasmin by entry 87

6 Sancorey cypresses March 95 for steps down

10 sancorey March 92

Dec 91 5 cyprès stricta Sancorey, rest of rey order rosa banskia on path down

B did 2 more cypresses by BH dec 89 also 4 cypresses below

Jan 88 B two more cypresses laurel corner where was that then?

Trompette de Jéricho Dec 83

Acer platanoides end of terraces from Cuche, near noisetiers

Terrace of hazelnuts can't find when they were planted, same time as almonds, this would be 1987?

Kitchen Terrace pots :

1 *Trachelospermum asiaticum* big pot by door on terrace

Passiflore

Mandevilla

Dwarf pomegranate from Cuches 2005

Oxalis from Andrew

Helichrysum 'Ruby Cluster' hybrid from chris Bowyer in Derby, England

Zauchneria 'California'

Salvia greggii × serpyllifolia from Braun fall 2013

Purple osteospermum

One moved I think Manon down by variegated box garage level Feb 14

Vittidinia in wall as of Jan 88 planted also 96

Annual herbs

Along road above house

Weeping cypress Cuche? cypres de cashmire 2001 April

Acer campestre line 1982 + self sowing north edge.

Creeping Rosemary

Salvia officinalis

Savory our serpolet is in fact thymus nitens, , serpolet has two little hairs at the base of each leaf

Wild grasses from the road

Allium tuberosum Chinese garlic: among the sage so they don't get mowed

Prunus Okame (abricotier du Japon) 2011

miscanthus it's M.sinensis 'Gracillimus' or possibly 'Morning Light' 2011

ivy Gloire de Marengo 86 at that time were skyrocket junipers, also one May 83

Raised bed kitchen path

Lavandula intermeida 'Dutch'

Lavander 'Web's price'

Rosa Bernard Bureau Auguste Gervais 88 moved here in 1990 (Aviator Blériot is yellow)

Veronica pendunculata 'Georgia Blue' from cuches 1999

convolvulus mauritanica nov 83

Helichrysum italicum

Tulbaghia BA 2013

Right below kitchen terrace north of path:

Euphorbia pithyusa self sowing everywhere

Deep pink purple osteospermum planted spring 2014 from pot

Pyracantha

Original pear tree

Self sown rosemary and ampelopsis

Raphiolepis March 92

Wild saponaria

Creeping rosemary west end, very old now

Self sown juniperus

Cistus crispus from 83???

Euphorbia pithyusa

Raphiolepis 'Springtime'? Rey 91 or dec 82

Pear that was already there

Pyracantha on wall 84 pyracantha yunnansis 82 dec 88 **pyracantha mohawk nov**

85 pyracantha on wall from Rouys.

Murier platane planted 84? Or is this the one byh the BH? Both perhaps, two mentions in December.

Purple osteospermum May 2014

Cistus crispus

Saponaria invading

Romarin rampant very old now

Path down hill

Rosier Banks and ceanothus (arboreus? Died 2011) jan 93

Ledge below, cotoneaster, genet de l'Etna 1996

Buddleia officinalis 1995

3 Noyers 'Franquette' spring 95, one remains

Triangle above kitchen terrace

Remove buddleia? The cotoneaster not listed here is spreading also but nothing will grow near the cypresses front.

3 cypresses probably 1980

Rosa 'Auguste Gervais' rooted shoots early 80s by 2014 taking over level above from Bernard Boureau 1988 moved to bed below 1990

Buddleja 'Bicolor' by Prunus autumnalis above kitchen garden 2012

LOST? 2013 lilac willemse not listed on orders??? Lilas double lilas all they have to offer

Moved by Senateur Lafolette Nov 14

LOST 1 séringat 'Virginal', by three cypresses 2012 Willemse

Small self sown cotinus moved in among invading rose shoots

Wisteria frutescens 'Amethyst Falls' 2012 willemse moved above senateur lafolette nov 14

3 Creeping rosemaries about 2008, two moved Nov 14

heathers bits left from mid 80s

Sophora already there in 85 one More planted 87 don't know which

Pyracantha self sown around 2010

2012 Prunus subhirtella 'Autumnalis Rosea' PJ?

Oct 2014 : muscari small « Armenian » outer edge in several places and moving inland among cotoneaster.

Spirea white one moved up to triangle because too much white at the same time below

Big Prairie : 3 koeleruteria planted 1980 REdoute

Erica lusitanica already there

Sorbus from Reynouard around 1980 all gone

Ailanthus self sown

Vine was already there

Prunus Okame and forsythia from terrace below

Jasmin mesnyi 80s?

By BH, cotoneaster, mimosas that died back to the ground in 2011, sprayed in 2012 and cut back to the ground by Rémy Leculier in 2013

Eucalyptus niphophila 84 from Kerdalo nearly uprooted in windstorm 1999, then half killed winter 2011. How did it survive 1985?

Eucalyptus Niphophila november 1982 this was an earlier one?

3 sorbiers 88

3 eucalyptus filicophila? "exotic" garden? Or nipho, Dec 90 **B planted three eucalyptus coccifera jan 2001 can these be those?**

East of BH

Big melia by lower level 86

Prunus sargentii on path down to potager, opposite almonds dec 1987

Talus below kitchen path

add hypricum excellent flair in low hole, More stoechas lavender? Edge path with vittidina. Put willemse daffodils here? 10-20cm shade OK

Oct 1st 2012 from Deanna 2 *Colchicum speciosum* var *Bornmuelleri* south bottom of kitchen talus marked with a stick, other? Foliage but no flower 2013
Tulburghia violacea bottom east plus triangle above by path, middle, some in path bed mainly east
Sariette and *origan laevigatum* from Rayol on kitchen path 2012, *sariette* died?
Euphorbia pithyusa self sowing everywhere
Sedem 'Joyce Henderson' + *Sedem spectabilis* 'Brilliant' + *Sedem Herbsfreude* pêche de vigne de Willemse 2012 died 2014
Phlomis 'Lycia' Filippi about 2009 ?
 By Cyprus *Narcissus tazette* 'Earlicheer' from
Dorychnum hirsutum and *pentaphyllum* now mainly gone badasse
origanum majorana did not develop
Chimonanthus praecox moved from west terrces? Sallé Proust 1990
dorychium pentaphyllum disappeared by autumn 2013
Hypericum Hidcote PISh autumn 14 + *Spirea* Snow mound from Potée Fleurie to fill in the hole by the laurier cerise *Spirea* replaced Dec 15 by *Buddleia Weyeriana* because too much white
Euphorbia rigida from Filippi
 Another lavender *dentata*, three now?
 Lower side, rosemary from Reynouard 2009
Cistus from Rayol the only one of their plants that survived?
 Large growing *euphorbia* on lower slope from Filippi
Vinca all over pale blue flowers
Ceratostigma Willmottianum
Chrysanthemums
 Oct 83 plants on slope above garden ledge two nice laurier otto lutkyn *cistus crispus* *vinca variagata*, *lyceum*
 February 81 *Prunus laurocerasus* 'Otto Luyken' Oct 82 laurier Otto L also, and mention later of Laurier Zabs, where were these? *Prunus laurocerasus* 'Zabeliana'.
 Also Dec 85 Nov 83: on slope above garden ledge two nice laurier otto lutkyn *cistus crispus* *vinca variageat* *lyceum*
 Rosier banks white double Dec 83
 Oct 14: *Hypericum* 'Hidcote' 10l pot from PSh against laurier cerise above Rayol *cistus* and clump of *ceratostigma Willmottianum*, roughly where pêche de vigne was.
 LOST *Clerodendron tric*: 84 broken 87 after three years but lived on for some years
Euphorbia from Filippi
 Rosemary de corse
Chrysanthemums
 Small *hypericums* died summer 2015
 1 lavender *dentata* 'Ploughman's Blue' spring 14 south side
Osteospermums orange from 2013 and 2014 after being in pots
Lavendula 'Hidcote' May 2014 two added at the western point
 Need something blue purple should put *lavandula stoechas* in several places
 Already one white and blue
Salvia from Sérignan moved to pot spring 2014
ligustrum lucidum Oct 82 ***ligustrum quihonii* dec 88**
 Wild: harebells, burnett

Far end outer edge, overlooking flower garden: Abelia grandiflora 'Francis Masson' and three ceanothus repens between prunus laurocerasus and cistus crispus gap where some of latter died

Lower terraces :

Cotinus east below orchard placed there in nov 88

Cotinus obovatus

Genistra aeteneus

**OLIVE ALLEe from our rootsprouts, planted with Chazalets February 1981
killed back to the ground in 85**

FLOWER GARDEN

Entrance: Raphiolepis both sides of path March 92 Rey north side huge, south still tiny in 2014 or 82 north Japonica = umbellate, white south Raphiolepis x delacourii 'Springtime' pale pink 150x1

iberis
iris from Les Colombières
yellow clover

BEDS Redone 12/17/2013

LPE EAST BED:

Noted 2013
Nettles beginning to fill in the middle space
Wild flowers not sure what along south edge
Lots of chiendent, persistent, not the same as in west part
Self sown: salvia sclarea 85, feverfew, umbellifères,
Along north edge west and NW of bed, deep orange chysanths
Iris now temporarily along edge before where nettles begin
Compost moved closer to cognassier 'Vrana' planted 2006, got our first fruit 3 this year 7 years!
Nepeta, roses premières

Added more salvias and feverfew from L2E by vine
Added middle Abelia "rouge" found dying at Super U, probably not hardy but if it grows, 2 M died

FIG forgotten last year but still OK 'Goutte d'Or' from JMR

Huge Melissa by compost

Grenadier from Willemse Meknes "sans grains" in front of compost

Trying Clerodendron Tr from above pool here, but injured badly by gnawing DIED

Cistus from Deanna in SE corner get name

Echinops ritro

LP2E mainly asparagus bed from Feb-March 2008, 9 Lorella 9 Hatif d'argenteuil west: oseille border and Euphorbia blackbird or [*amygdaloides 'Purpurea'*](#) 93? Vine Exalta from 2007 (northern one removed)

17/12/2013 planted capron royal strawberries west of vine in path space between vine and asparagus, north end has anthémis recuperated from other edge last year Left under vine, three hyssop don't seem to do so well here, and self sown melissas that are happy, removed salvia sclareas as they get too big

North edge: band of stachys

Around Self Sown peach tree, supposed to be tulberghia? Two lavenders foot of tree also Hidcote I think Now still catanche planted last year, small hemerocalles scattered, leftover strawberries Strawberries Ostara 93

a new bouillon blanc, in the corner a big echinops idea is a band of flowers between stachys and asparagus

1 orange helianthemum

I removed lots of salvias sclarea, feverfews from the asparagus

Will try creeping tomato vines there next year to help prevent beetles?

And as ground cover yellow clover invading as ground cover

Perovskia invading SW corner

Tulburghia violacea, 5 next to pecher

LP2W

Vine along south side with strip of yellow salvia officinalis is Sulima, sans pepin mid summer début sept

Stachys lanata

Peppermint and apple mint north edge

12/17/2013 new edger east edge of Iberis sempervirens, ten plants across from sorrel

Made islands of plants around Red Robin peach, bucket of old compost first

Perennial leeks from above southeast of tree, feverfew in SE corner salvia sclarea south in SW corner

an arrangement of clumps, new artemesia, rooted bits of tansy, feverfew, poireaux perpetuels, sages, there is already nepeta more sages and mint, and rose tremiere, had planned to put rose there too but don't think there will be room. three orange agastache from Willemse in a triangle middle west edge.DIED

added autumn 14: chunks of saturei winter savory, purple oregano from upper potager, oregano bought but very rootbound chez Richard but broken into three chunks;

Also artemesia, a new one, next to artichoke, one big remaining artichoke survived 2011 one small bit of anthemis there too

Central island of tansy from above

9 raspberries, 5 marastar along north side from Plantes et jardins or PlSh?, 4 Fallgold along east side Marastar did fine, Fallgold pitiful

Two lavenders Hidcote foot of tree also survived

Agastache Willemse 3 Agastache 'Orange Nectar' 2013 this is above potager border blue ones here died

More stachys west edge and filled in along north, mixed with mint supposed to be OK with framboisiers (two types)

Tulburghia violacea 7 pecher

Added second artichoke from above
Deep blue asters west edge,
Piece of hyssop

HYPERICUM androsaemum 'Buttercup' from PLantes shopping aromatic 60x 60 erigé longer
flowering red then blue fruit

Room for one shrub here, groseiller Gloire des sablons died, thought of Iceberg but it
doesn't want to be moved
Make an herb tapestry

Used to be Royal Galas in a row, 88 from Bourgeaud

Euphrobia rigida

Hypericum 'Hidcote'

86 2 Hypericum hidcotes Rowellane either side of steps??

Tulburghia violacea,

Lower potager, n5 next ot pecher L2E 7 pecher L2W disappeared

LPW

Pécher plat, not much chance of harvesting any 'Saturn' from Delbard, January 2003

Mostly echinops now, some comfrey left, hemerocalles, Lychnis, peppermint, mostly
will just weed this and leave it alone

Dec 2013 added in NE corner: Rosa Gallica officinalis from Pic Vert

Outer edge

Perovskia in two places far east and middle

Bronze fennel

Caryopteris 'Kew Blue' Dec 82?

Cistus [Cistus x ledon](#) ?

Rose 'Iceberg'

planted east end an unknown tree with red foliage, thorns, self sown here moved to
edge, and another self sown peach form cmpost

euphorbia wulfreni 93

big clump of self sown kniphofia

Buddleai miniature 'Blue Chip' from Briant 2010

Self sown Euphorbias big ones

Hemerocale the yellow ones

hydrangea quercifolia 3 dec 88

2 Eryngium pandifolium from Jean Lafont spring 88

dec 89 Cognassiers way below two new ones géant de Vrana for east, philadelphus manteaux d'Hermine as low hedge below wall, planted again 1991. failed cognassier and new one Portugal other was giant de Vranja

dec 89 Below by spring cognassier, B and I cleared oaks and brambles beyond: 5 Hdrangea quercifolia, enkiantus, two tiny hellbores corsicus, two big mahonias, and philadelphus manteaux d'herbine hedge, deanna's coryline, lamiums, heuchersa, passion flower Im Eugénie

FRUIT VARIETIES relisted in 2009, since 1990 + additions

Cherries: Ulster? Allegra, Belle Magnifique, Reverchon Burlat Starking Hardy

Giant, Starking Gold Delbard, Coeur de Pigeon

June 1992 says: Moreau and Burlat gone, also Anglaise

Almonds, Ferra des Ferruges 1987 Sat dec 19th planted 16 almond trees, 4 Ferraduel spaced among others including back

2 ARdcèhe ones middle back, one coque dur one coque tender

Jan 88 last one

Upper orchard: Peaches old Red Robin, Sanguine, Redhaven

Apricot Hargrand Dec 02

In 2002: Lower potager orchard, back, poirier Exquise d'hiver, ?+?+2 red robin + sanguine. Front Merrill Franciscain ? late yellow, + Delay +?+?

Lower orchard: Delbard Pomme ? Jubilee two apples planted 86 did not say names
End peach Early Redhaven

Strawberries 'Capron Royal' UW planted 2012

2007 November vines lower potager

W Candin early sept INRA

2E S Exalta late white seedless, S muscat de Marseille red mid August (this is backwards I think) northern one removed in 2011

2W artichokes Sulima, sans pepin mid summer début sept

2012 Seedless white Willemse also Exalta

Pêchers Lower potager: plat west mid July, have to pick hard because of insects;

Red Robin Feb 89 middle before Amsden, self sown asparagus

Flower garden: Michelini moved below dec 13
86 Fruit: Williams picked, Delbard estival mid august, peaches: b picked Merrill franciscain while away, overlapped with white delbard silver logan

Lower orchard: Feb 89 nameless local with large red apples from Gougou

Fruit trees lost:

95 two fruit trees from J? one west apricot Saint Didier, peach east.

93 Amsden second last lower orchard

89 **Red Robin**, Primrose pechers, two apples bourniquel west of reine des reinettes, nameless local with large red apples, one apricot M...? from Goujon; and from pépniere near Aubenas apricot Luizet

90 two peach trees Delbard Reine des Vergers and Grosse mignonne

1985: reine des reinettes, Reine Claude, Calville Blanc

Stanley and quetch lower orchard, Ahane and Delbard Estival, about same time then Cheftain pears Williams Golden

Planted 2 nectarines Stark Sunglow outer edge small orchard, silver lode next to pear

85 abricoter Delbard Rouge tardif end of lower row and prunier thames cross

On big prairie above planted 84: three noyers parisiens now have on big prairie 2 corne deu périgord, 3 routsant and franquette

Cardinal grapes

Lloyd George framboisiers

Red Williams pear

March 82 planted two Delbard pears Super domicile and super delbard spur types and two vines, now that makes three on the edge of the artichoke trrace, cardinal muscat and ?

83 Rouys fruit trees: passe crassane, pecher Merrill Franciscan, 4 prunus: Mirabelle, nancy quetch Stanley RC Dorée, Granny smith

Planted first batch of fruit trees, lower orchard E to W: quetcsh miravbelle de nancy, reine claudé doré, starking granny smith plus three holes empty, for passé crassone and ,

Upper orchard added Merrill franciscain,

Still 83: Planted 3 Delbard apples two more peaches abriotier luizet in little orchard cassis noir de naples

noyers three big franquettes from Rouys, 2 cornes ud period from saint anhelme

planted one amsden, one silver logan west of apricotier upper 83

abriotier luizet in little orchard 83

nov 85 2 nectarines Stark Sunglow, silver lode outer edge small orchard

abricoter Delbard Rouge tardif end of lower row and prunier thames cross

86 2 pêchers Red Robin and Redhaven from REynouard, Redhaven planted below, RR upper

87 Cherry trees planted 5 in 10 holes

Most east: Coeur de pigeon from Rouys (2 years old)

4th going West Burlat from Rouys

5th West Reverchon form Gourdon one eyhar

8th west from east Moreau Roys

9th Ulster from Gourdon (second from west end)

Expected: 2 Gold 3 Hardy Giant 6 Belle Ma? Allegría and last one doesn't say
